Owner's Manual – Section Overview

Provides general information on the property, generally not found elsewhere, such as loading docks, fences, mailboxes, bollards, and tenant mailboxes.

Provides building width and exterior dimensions to scale.

Identifies the locations and sizes of dumpsters, together with the name of the dumpster companies and the locations of all trash cans.

Identifies the location of all electric meters, the units they operate and the meter numbers. It also locates outside receptacles, phone booths and telephone numbers.

A compilation of the electrical, fire and water site plans, for quick, easy-access in case of any emergency situation.

Identifies the locations of all fire hydrants, risers, valves, and fire riser rooms if present. Will also identify fire sprinkler zones if information is provided.

Identifies the locations of all gas meters, the units they operate. It also identifies the gas company name and the contact numbers.

Identifies the manufacturer, model & serial numbers, and locations for all HVAC units.

Identifies the locations of all the valves and the zones they operate. It details underground wire tracking, timer locations and type, as well as what the water source is.

Identifies greenscape from hardscape. Locates and provides approximate shape of each bed and green areas.

Owner's Manual – Section Overview

Identifies all under-canopy and parking lot lighting. It separates tenant operated from owner operated lighting and details the location, type, and voltage of each light. Furthermore it also identifies meters, photo-cells, contactors, and timers.

Identifies the exact geographic location of the property. Contains the physical address with the zip code, including a macro and micro view.

Details the total number of spaces and identifies all disabled spaces and ramps. It also locates speed bumps, humps, and striping

Identifies all pavement markings including handicap spaces, directional arrows, stop lines, crosswalks, fire lanes, etc.

Provides photos and overall measurements for pylon signs and monuments signs, as well as the panel sign measurements.

Identifies any equipment/features on the rooftop of the property such as vents, hot stacks, pitch pockets, etc. (This information is to be provided by the customer at the time of the survey.)

Identifies every sign on the property, its location, and verbatim the wording on each sign.

This page identifies the size and quantity of catch basins, as well as location of storm drains and spillways.

Identifies the location of each apartment/garage/mailbox numbers and the square footage of the unit.

Identifies the location of water meters, the units they operate and the meter numbers. It also identifies hose bibs, zurn fittings, water shut-offs and back-flow preventers.

...excellence by design!
